ELM CLASS

What an exciting half term we have planned to end the year.

The Magic of Roald Dahl will be the thread leading our learning. We will look at the magic throughout books such as *Matilda*, *BFG*, *Charlie and the Chocolate Factory* and the *Enormous Crocodile*. Throughout our theme learning we will be creating our own sweets as well as making potions and exploring changing properties.

The story of *The Enormous Crocodile* will allow us to explore the jungle setting and animals.

We loved our learning last half term, we look forward to building on this.

BEECH CLASS

Welcome to the magical world of Roald Dahl!

Our learning this half term will delve into the wonderful works of Roald Dahl and his influence on the world. We will be focusing on the lives of *Matilda* and *George's Marvellous Medicine* in particular.

Our focus texts will feature in all aspects of our learning as we explore Roald Dahl as a significant figure, the illustrations of Quentin Blake and apply themes of medicine, leadership, creating potions, magic and books in PSHCE, R.E, D&T, Geography, History, Art and Science.

What an exciting, jam-packed half term we have in store!

Elm Class

MATHS

Maths will revisit, recap and extend our previous learning particularly focusing on doubling and halving, time and counting in multiples of 2, 5 and 10. This will all be done in a thematic way continuing to build on the excitement of the new theme.

WRITING

This half term we will be writing recipes, rules and potions. We will explore imaginative writing creating our own magic. Our Role play delves into the life inside The Twits' caravan carrying out magic and cooking up revolting recipes. Through the Revolting Rhymes we will recap rhyming words.

Beech Class

WRITING

In writing this half term we will be creating our own blogs based on our experiences and by imagining what it would've been like to be Matilda on her first day at Crunchem Hall! We will explore imaginative writing using concrete props and unleashing the magic inside of ourselves. We will be using immersive role play to fuel our imaginations!

MATHS

Maths will be building upon previous learning to investigate estimation of Mr Wormwood's car sales profits and George's medicine. We will be exploring capacity to help George find the best container for his medicine as well as continuing with calculation and time.
