

HOME LEARNING

This half term, our focus in class will be home and what this means to you and to other cultures. Based on this, I would like you to create a project due in on the 10th February that centres around this. Try to create something different to your last projects. It might be a story based at home, a piece of writing on what makes a home to you, a design of your perfect home, etc. Please make sure your project shows 5 weeks worth of learning.

Remember to continue practising spellings, times tables, etc.

WILLOW
